MongoDB connection :

The screenshot shows the MongoDB Compass web interface. The top bar indicates the connection to 'localhost:27017/MyDatabase.users'. The left sidebar shows the database structure with 'MyDatabase' expanded, listing collections: 'Books', 'Hotels', 'Places', 'users', 'admin', 'config', 'local', and 'syscs'. The 'users' collection is selected. The main panel displays the 'MyDatabase.users' collection with 4 documents and 1 index. The documents are listed in a table-like view with the following fields: '_id', 'Name', 'Password', 'Phone', and 'Email'.

_id	Name	Password	Phone	Email
